 - B. Documents required to be submitted: application form, one autobiography, one statement of purpose, one original copy of undergraduate transcript record (with ranking), and other useful supporting documents, for example, General Scholastic Ability Test of Physics.

Article 2 Study period and credit requirements

1. The minimum and maximum study periods for master programs must be one to four years, and the minimum graduation credits is 24 (19 credits should be fulfilled by passing the courses offered by Institute of Physics. Part-time student is not admitted to Institute of Physics now. A student who fails to pass the oral defense or to complete all the required courses within the maximum study period is required to drop out of NCTU.
2. Credit transfer regulation of master program: Students who want to transfer credits should follow "Regulations of Credit Transfer." They should submit the application form, transcript for all semesters, and related documents of courses. The applications will be passed by Course Committee of Institute and submitted to the Office of Academic Affairs for examination. 18 credits can be transferred at most.

Article 3 Thesis adviser and course selection
